

WILSON ADDRESSES THOUSANDS IN THE COLISEUM AT ST. LOUIS

MAKES TWO SPEECHES DURING DAY ON LEAGUE OF NATIONS

President Declares That to Amend Treaty Would Mean its Failure and the Isolation of the United States—Asserts War Was Not a Political War But a Commercial and Industrial War.

ST. LOUIS, Mo., Sept. 5.—The United States will be the senior partner, the financial, economical and commercial leader if she joins the family of nations, President Wilson asserted in the fourth address of his 10,000 mile tour here tonight.

"I have seen some men of amazing ignorance saying that the covenant of the league of nations was an arrangement for war," said the president. "I wonder if these gentlemen commenting on the treaty have ever read it." Here the president said he would give the persons a copy and the audience shouted "give Senator Reed one."

"If we reject the treaty we will stand alone in the world," continued the executive. He asserted that only the ignorant believed the United States could stand alone against the world. The executive explained the proposed workings of the reparation commission, saying it would strive to revive world industry and see that Germany paid her debts to civilization.

The president asserted the burden of reconstitution must be carried or the United States would be ruined. In the event that the United States should reject the treaty this country would become a virtual no-man's land in the financial world, declared the speaker. Remaining out of the league means a large standing army, munition factories, fortifications, which altogether means higher taxes, the president explained. Declaring the covenant one of arbitration and discussion, the president said the United States would be turning traitor to the men who won the war if she refused to enter the league. The president reminded his audience that men in the service had been told they had been fighting to end future war and if this country failed to join the pact she would not be fulfilling her pledge.

After the evening speech the president's party motored to the railway station and went directly to their train. It did not leave for some time and Mr. Wilson spent a half hour on the rear platform chatting with Secretary Tumulty and Dr. Grayson. Held back a little distance by police lines was a crowd which repeatedly shouted to the president for a speech, but he smilingly declined.

Speaks in Coliseum.
Coliseum, St. Louis, Mo., Sept. 5.—In two addresses here today President Wilson discussed at length disputed points of the peace treaty and invited those who oppose it to prove whether they "are not absolute, contentable quitters if they do not see the game thru."

The Shantung provision the president defended as the only solution possible by which China can be assisted in her effort to regain control of Shantung province. Analyzing article ten of the league covenant, he said the league council could only advise and could not do that without concurrence of the American member. The right of revolution he asserted, was scrupulously preserved.

The president's first address was at a Chamber of Commerce luncheon after he had been cheered along the route of a seven mile automobile ride thru the streets. At night he spoke in the coliseum where in 1916 he was renominated for the presidency.

The coliseum was packed. Thousands of small American flags had been distributed and the audience waved them wildly while they cheered.

Governor Frederick D. Gardner introduced Mr. Wilson as the "father of world democracy." A photographer called for a moment's attention to take a flash-light but the president did not wait.

Mr. Wilson declared that to amend the treaty would mean its failure and the isolation of the United States. Only those who are ignorant of world affairs, he said, could believe that even a great nation like the United States could stand by itself and apart.

Must Save World Interests.
If the United States is to save its own economic interest, said the president, it must save the economic interests of the world. That was one reason, he continued, why the United States should have a representative on the powerful reparation commissions. If there were no American voice in this commission, he asserted, this country would have to put into the hands of foreign interests seeking to control world markets, American money for the rehabilitation of the world.

"That," said the president, "is what they call playing a lone hand. It is playing a lone hand; it is playing a hand frozen out. Those who propose these things do not understand the interests of the United States."

Should America fail to take its just part in the world rehabilitation the president asserted the whole attitude of the world to-

G. O. P. SENATORS WILL DISCUSS TREATY

Washington, Sept. 5.—Engagements of a number of senators to discuss the peace treaty in the east and middle west in the near future were announced today at the capitol. Republican leaders said there was no purpose to "trail" President Wilson but that it was proposed to reply to the president's addresses both on the floor of the senate and elsewhere.

Senators Johnson, California; Borah, Idaho, and McCormick, Illinois, Republicans, are to address a mass meeting in the Chicago Auditorium next Wednesday.

Senator Johnson will speak later at Indianapolis, St. Louis and Kansas City. Senator Reed, Democrat, Missouri, will speak Sunday at Akron, Ohio, and Senator McCumber, Republican, New York, will make an address next week at Salem, N. Y. Senator Poindexter, Republican, Washington, will speak Thursday at Dunkirk, New York, and later at Pittsburgh and New York City.

Senator Johnson said:

"My Fellow Countrymen: We have met on an occasion which is much too solemn to care how we look. We ought to care how we think, and I have come here tonight to ask permission to discuss with you some of the very curious aberrations of thinking that have taken place in this country of late."

"I have sought—I think I have sought without prejudice, to understand the point of view of the men who have been opposing the treaty and the covenant of the league of nations. Many of them are men whose judgment of a patriotic feeling I have been accustomed to admire and respect. And yet I must admit to you my fellow countrymen, that they are very hard for me to believe that they follow their line of thinking to its logical and necessary conclusion, because when you reflect upon their position it is either that we ought to reject this treaty altogether or that we ought to change it in such a way as will make it necessary to reopen negotiations with Germany and reconsider the settlements of the peace in many essential particulars."

"We cannot do the latter, alone and other nations will not join us in doing it. The only alternative is to reject the peace and to do what some of our fellow countrymen have been advising us to do; stand alone in this world."

"I want to point out to you that only those who are ignorant of the world cannot believe that any nation, even so great a nation as the United States can stand alone and play a single part in the history of mankind."

"I suppose that most of you realize that it is going to be very difficult for the other nations that were engaged in this war to get financially on their feet again. I dare say you read the other day the statement of Mr. Herbert Hoover's opinion that it will be necessary for the United States immediately to advance four or five billion dollars for the rehabilitation of credit and industry on the other side of the water and I must say to you that I learned nothing in Paris which would leave me to doubt that conclusion. And I think the statement of the sum is a reasonable and conservative statement."

"If the world is going bankrupt, if credit is going to be destroyed, if the industry of the world is going to be interrupted, our market is confined to the United States, trade will be impossible except within our own borders. If we are to save our own markets and rehabilitate our own industries, we must save the financial situation of the world and rehabilitate the markets of the world."

"Germany can't pay for this war unless her industries are revived and the treaty of peace sets up a great commission known as the reparation commission in which it was intended that there should be a member from the United States as well as from other countries and the business of this commission will be to see that the industries of Germany are revived in order that Germany pay this great debt which she owes to civilization. That reparation commission can determine the currents of trade, the conditions of credit of international credit, it can determine how much that Germany is going to buy, where it is going to buy and how it is going to pay for it, and if we must, to save ourselves, contribute to the financial rehabilitation of the world without being members of this partnership we must put our money in the hands of those who want to get the markets that belong to us."

"We must contribute the money which other nations are to use in our country to rehabilitate their industry and credit and we must make them our antagonists and rivals and not our partners."

Portion of Speech.
President Wilson in his address tonight said:

"I have sought—I think I have sought without prejudice, to understand the point of view of the men who have been opposing the treaty and the covenant of the league of nations. Many of them are men whose judgment of a patriotic feeling I have been accustomed to admire and respect. And yet I must admit to you my fellow countrymen, that they are very hard for me to believe that they follow their line of thinking to its logical and necessary conclusion, because when you reflect upon their position it is either that we ought to reject this treaty altogether or that we ought to change it in such a way as will make it necessary to reopen negotiations with Germany and reconsider the settlements of the peace in many essential particulars."

"We cannot do the latter, alone and other nations will not join us in doing it. The only alternative is to reject the peace and to do what some of our fellow countrymen have been advising us to do; stand alone in this world."

"I want to point out to you that only those who are ignorant of the world cannot believe that any nation, even so great a nation as the United States can stand alone and play a single part in the history of mankind."

"I suppose that most of you realize that it is going to be very difficult for the other nations that were engaged in this war to get financially on their feet again. I dare say you read the other day the statement of Mr. Herbert Hoover's opinion that it will be necessary for the United States immediately to advance four or five billion dollars for the rehabilitation of credit and industry on the other side of the water and I must say to you that I learned nothing in Paris which would leave me to doubt that conclusion. If we are to save our own markets and rehabilitate our own industries, we must save the financial situation of the world and rehabilitate the markets of the world."

New York Plans Great Welcome For Pershing

NEW YORK, Sept. 5.—Funds were provided by the board of aldermen today to insure a reception worthy of the city for General Pershing and the famous first division. The last of the troops came home on transports which arrived today and the commander in chief will return on the Leviathan which is due early Monday morning.

Not only did the aldermen appropriate \$100,000 to pay the welcome expenses but they declared next Wednesday, when the division will parade with Pershing at its head a holiday in all city departments.

It has been definitely decided that General Pershing will lead the parade on his charger "Kidron." Immediately behind him will ride his personal color bearer. Next in line will come the general's staff followed by the composite regiment which formed his guard of honor in the European victory parade. Major General MacLachlin will lead the first division. The procession is expected to take five or six hours to pass a given point.

The famous French "75" gun with which the division artillery fired its first shot at the Germans arrived here today and will be placed on exhibition.

Sergeant Alex L. Arch of Battery C, Sixth field artillery, who fired the first shot from this gun, arrived here today on the transport Zeppelin. Two corporals, Robert A. Braley of Chicago and Louis J. Varady of East St. Louis of the original gun crew accompanied him.

Bohvard and Mexican border friends of General Pershing are flooding to this city to take part in his welcome.

A delegation from Missouri, the general's native state, is expected Sunday.

The mayor of El Paso, Texas, and 25 business men of that city are due here tomorrow with a party from Cheyenne, Wyo.

BERGER DISGUSTED WITH SOCIALISTS

CHICAGO, Sept. 5.—Congressman-Elect Victor L. Berger, of Milwaukee, retired today as a member of the national executive committee of the national socialist party and announced he would not be a candidate for re-election. "I have been a member of the committee ever since the party was organized," said Berger, "and all I ever got out of it was a twenty year prison sentence."

PREPARE LIST OF NAMES.
Washington, Sept. 5.—Four members of President Wilson's cabinet—Secretaries Glass, Lane, Redfield and Houston—at a meeting today at the white house prepared a list of names from which the president will select fifteen to represent the public at the labor industry conference here October 6. The names will be submitted immediately to the president it was said after the meeting.

OFFERS DEMPSEY \$60,000.
Reno, Nev., Sept. 5.—An offer of sixty thousand dollars to Jack Dempsey to fight Willie Meehan, 25 rounds in Reno some time after the first of the year, was made today by the Reno Athletic club in a telegram to Jack Kearns, Dempsey's manager. Members of the Reno club say that Meehan is willing to fight but what offer was made him was not given out.

PRINCE OF WALES ON FISHING TRIP

Nipigon, Ont., Sept. 5.—The Prince of Wales and his staff embarked on a long fishing trip early today. Leaving the train at Orient Bay, the party went by launch to Virgin Falls and there took to the fleet of canoes which will carry them thru the Nipigon lake and river for the next three days.

Condensed Telegraphic News

LA SALLE, Ill., Sept. 5.—LeRoy A. Goddard of Chicago was elected president of the Illinois Bankers' association at the closing session of the annual convention here today. Other officers elected were:

W. C. White, Peoria, vice-president; J. H. Standard, Oglesby, treasurer; N. A. Gattinger, Springfield, secretary.

CHICAGO, Sept. 5.—The police were notified today of the arrest in Sparta, Wis., of a man believed to be Paul J. Haverly, missing grand keeper of records and seal of the Illinois Grand Lodge of Knights of Pythias, who is sought in connection with a shortage of about \$52,000 in the funds of the order. The prisoner, who denies that he is Haverly, is said to answer the description of the missing official, and a member of the order has gone to Sparta to try to identify him.

ST. LOUIS, Mo., Sept. 5.—President Wilson today replied to a telegram sent him by Samuel Tompkins, president of the American Federation of Labor on behalf of the steel workers. This was learned just before the president's special train pulled out of the station. The president did not disclose the nature of his answer.

SENATE PASSES THE PROHIBITION ENFORCEMENT

Measure Now Goes to Conference for Discussion of Changes

WASHINGTON, Sept. 5.—The prohibition enforcement bill was passed by the senate today without a record vote and virtually in the form it came from committee. The measure now goes to conference for discussion of amendments inserted in the house bill by the senate.

The only material change made in the bill in the senate was the addition by amendment of the liquor and drug prohibition act for the Panama Canal zone. This measure has not yet been acted on by the house.

An eleven-hour attempt by Senator Shields, Democrat, Tennessee, to render ineffective the whole section of the measure relating to enforcement of war time prohibition failed his own vote being the only one cast in favor of it. His amendment would have limited the operation of the war time law to the six states in which demobilization camps are located.

As it passed the senate and goes to conference the bill defines as an intoxicant any beverage containing more than one half of one per cent of alcohol. The senate modified, however, some of the most rigid provisions of the house bill including that affecting private stocks of alcoholic beverages held for personal use.

Passage of the bill by the senate was in striking contrast to its troubled voyage thru the house. No serious effort to alter its terms was made except the attempt by Senator Shields. Senator Wadsworth said only 8 per cent of the army remained to be demobilized and that passage of a war time enforcement act offered a curious spectacle of law being giving for carrying out a law that was about to die.

"If events transpire as we assume they will transpire, this act will expire in two months or six weeks," Mr. Wadsworth said. "Does the senator mean," asked Senator Pomerene, Democrat, Ohio, "that the treaty will be ratified in two months?"

"I said nothing about ratification," Senator Wadsworth replied. An attempt by Senator Norris, Republican, Nebraska, to amend the bill so that violation of regulations promulgated under its authority would not have the same force as violation of the law itself. This provoked considerable discussion, but the proposal found few supporters on the vote.

WILL RESIDE IN U. S.

New York, Sept. 5.—Jose Parado Barreda, twice president of Peru, who was deposed and imprisoned as the result of a "bloodless" revolution in Lima on July 4, arrived here today to make his home in the United States. "I have been a member of the party that had no further interest in politics and intended to devote myself to the education of his sons, one of whom will enter an American university while three others will be enrolled in a New York high school."

GOMPERTS WILL ADDRESS MINE WORKERS

Cleveland, O., Sept. 5.—Samuel Gompers, president of the American Federation of Labor, and W. B. Wilson, secretary of labor, will be in Cleveland to address the convention of the United Mine Workers which opens next Tuesday to last at least two weeks.

Mr. Gompers will be here Friday officials of the Cleveland Federation of Labor announced today. Secretary Wilson's date is not yet fixed.

ASK SUPPRESSION OF AFFIDAVITS

Chicago, Sept. 5.—Counsel for Luigi Curci, whose wife, Amelia Galli Curci, the opera singer, is suing for divorce, today asked suppression of the affidavits of Melissa Brown, of Fleischmanns, N. Y., named as co-respondent. Her cousin, Mary Rinaldi, and all other witnesses on the ground of incompetence. It was charged that the affidavits were improperly attested and that some were taken before filing of the singer's amended bill.

ENCOURAGE TRADING.

New York, Sept. 5.—Incorporation of the British chamber of commerce in the United States which has among its objects the encouragement of trading between this country and England; the settlement by arbitration of commercial disputes; investigation with regard to standing of firms and individuals both in this country and Great Britain and the promotion of British commercial interests in the United States was approved here today by Supreme Court Justice Guy.

Hartford, Conn., Sept. 5.—Betty Blacklock won from a field of five in the 2:10 class pacing event of the Grand Circuit carol at Charter Oak park this afternoon.

BRINGS DEATH LIST UP TO 34

Chicago, Sept. 5.—The total number of deaths in the recent race riots here was brought to thirty eight today when Samuel Barnett, colored, died of wounds he received in a riot fight.

Secretary Of Commerce Quits Wilson Cabinet

WASHINGTON, Sept. 5.—William C. Redfield, secretary of commerce, has tendered his resignation to President Wilson and it has been accepted, effective November 1. This was announced officially today.

Secretary Redfield, in announcing his resignation, said he found it necessary to give immediate attention to personal business affairs.

The secretary said he wrote President Wilson on August 1 asking him to accept his resignation as of October 15. When he found the president was to be away on his speaking tour during September he agreed to remain until the last of October.

An announcement of Mr. Redfield's resignation did not come as a surprise. Since his disagreement with Director General of Railroads Hines regarding prices for steel several months ago it had been almost common gossip that he contemplated resigning.

President Wilson was in Europe when Mr. Redfield set up a board to agree upon fair prices for necessities with a view to stimulating production. Mr. Hines refused to accept the price for steel agreed upon between the board and the industry, contending that it was too high. The controversy finally was referred to the president at Paris. No formal announcement was made but soon afterwards the board was dissolved and Mr. Hines proceeded to buy steel for the railroad administration in the open market on competitive bids.

Mr. Redfield, however, denied that his resignation was result of friction between himself and other administration officials.

"My resignation," he said, "is not the result of any quarrel, disagreement, chagrin or any other unpleasant occurrence, but is caused solely and entirely by my desire to return to business and give my attention once again to my personal affairs, which for more than eight years have been subordinated to the public interests."

Mr. Redfield is the sixth man to leave the cabinet during the six years of President Wilson's administration. Others were Secretary of State Bryan, Secretary of War Garrison, Secretary of the Treasury McAdoo, Attorney General Gregory and Attorney General McKelvey, who was appointed to the supreme court.

WOULD KEEP U. S. MARINES IN FIUME

PARIS, Sept. 5.—It is understood that the commission of allied generals sent to Fiume to investigate disturbances there in which French soldiers were killed has made recommendations to the peace conference which include maintenance of public order in Fiume by an American and British police force, marines forming the American contingent.

EX-KAISER ESCAPED WITH 650,000 MARKS

Berlin, Sept. 5.—(By The Associated Press.)—The total amount of cash former Emperor William had on his person when he fled to Holland was 650,000 marks, according to a statement made today by Dr. Albert O. Suedekum, Prussian minister of finance. Dr. Suedekum also declared that a careful investigation had failed to indicate that the former German imperial family has capital "planted" abroad. The minister added that he expected shortly to announce a proposed plan of settlement of the Hohenzollern family's financial affairs and that this would not be dictated by pettiness or malice and would not call forth justified criticism.

NOTE OF PROTEST

Paris, Sept. 5.—(Havas.)—The Bulgarian peace delegation sent the peace conference this morning a note protesting against representations that the Moslem population of eastern Thrace had been cruelly treated by the Bulgarians. The representations are declared to be untrue.

Two of the peace conference commissions held meetings this morning. The commission for the execution of the Versailles treaty and that dealing with Dutch and Belgian affairs.

RETURN TO WORK

Chicago, Sept. 5.—Cleaners and dyers who have been on strike here for the last two weeks returned to work today without winning their fight for higher wages. More than 100 shops opened.

"The trouble was caused by bolshevik agitators," declared Arthur Berg, secretary of the Chicago Dyers and Cleaners' association, "so we have decided to open our shops to American workmen only."

ANOTHER LOAN TO ITALY

Washington, Sept. 5.—An additional credit of \$17,000,000 to Italy was announced today by the treasury, making a total for that country of \$1,618,975,945 and a total for all her allies of \$9,684,272,567.

REPUBLICAN SENATORS IN SPIRITED REPLIES TO WILSON'S ADDRESSES

Senators Borah and Sherman Assail Statements by the President in His Columbus and Indianapolis Speeches

WASHINGTON, Sept. 5.—President Wilson's addresses to the country in support of the peace treaty and league of nations evoked prompt and spirited replies today from the senate floor.

Senators Borah, Idaho and Sherman, Illinois, Republicans, assailed statements by the president at Indianapolis and Columbus. On the other hand Senator McCumber, Republican, North Dakota, attacked the treaty reservations adopted yesterday by the foreign relations committee and presented six substitute reservations regarded as expressing views of Republican senators favoring reservations of "mild" type.

IN CLASS WITH YORK

NEW YORK, Sept. 5.—One lieutenant colonel, twelve other officials and 250 snipers of the German army cried "Kamerad!" to Sergeant "Bill" Donnelly, a fighting Irish member of Company B, 18th infantry during the second battle of the Marne—and there by placed Sergeant "Bill" up in the class with Sergeant Alvin C. York, of Pail Mall, Tenn., champion hero of the world war—it was announced tonight.

Donnelly according to his official record with a squad of six men "surrounded" a chalet in which German snipers were at work, drove them to their "bomb proof," and then loudly called for grenades with which to blow them up. The result was that all surrendered, filed out and marched back to the first visible lines under Donnelly's able direction and won Sergeant "Bill" the French military medal and the recommendation for the congressional medal of honor.

Referring to the president's statement at Indianapolis that under the league "we can mind other people's business," Senator Borah criticized American military operations in Russia, declaring such to be "a usurpation of power" without authority under the constitution and for the purpose of aiding Japan's Siberian policy. Senator Sherman resented the president's assertion in Columbus that the international conference authorized under the peace treaty would be held here next month regardless of whether the senate had ratified the treaty by that time. The president's attitude showed a "contemptuous disregard" of law, the Illinois senator said, adding that officials had been impeached for lesser breaches.

McCumber Speaks Briefly.

In presenting his proposed substitute resolution of ratification Senator McCumber spoke briefly. In lieu of the committee reservation to Article Ten of the league covenant, he proposed a reservation merely declaring that specific action be required from congress to make territorial guarantees effective and that failure of congress to act as proposed by Article Ten should not be considered a violation of the covenant. Other substitute reservations proposed by Mr. McCumber would in the main change only the phrasing of the committee reservations regarding the Monroe Doctrine withdrawal from the league and action on domestic questions. Two additional reservations presented by Senator McCumber provide for return of Shantung province by Japan to China upon adoption of the treaty and for limitation of voting power of British colonies in the league as to disputes with the mother country. The latter two provisions were covered by the committee as amendments instead of reservations.

The foreign relations committee closed its hearings today on the treaty by receiving protests from Italian-American interests against loss to Italy of Fiume. Witnesses declared President Wilson had "blue pencilled" the award of Fiume to Italy, that British interests for economic reasons had sought to create a breach between the United States and Italy, and that a new proposal from Paris for compromising the Italian territorial dispute now was before the president for approval.

Lodge for More Information.
President Wilson in a letter presented in the senate late today by Chairman Lodge of the foreign relations committee submitted further information regarding the Rhine territorial agreement. The memorandum enclosed by the president defines the respective jurisdiction of military forces occupying the Rhine district and the inter-allied high civilian commission.

Presentation of Senator McCumber's proposed substitute reservations today was regarded as definitely joining the issue between senate factions advocating "strong" and "mild" reservations. Some senators were understood to be counting on strong Democratic support for the McCumber reservations.

Indications today were that actual consideration of the treaty might begin late next week which would be sooner than was expected. Chairman Lodge and Senator Hitchcock, Democrat, Nebraska, leaders of the majority and minority of the foreign relations committee today began work on their formal reports.

Senator Shields, Democrat, Tennessee who voted with the committee Republicans yesterday for most of the League reservations, announced today he would join neither Senator Hitchcock's minority report nor in the majority's findings but might submit separate views.

POLICEMAN WOUNDED

Kansas City, Mo., Sept. 5.—One policeman was dangerously wounded, another injured and three of their alleged assailants were wounded in a downtown street skirmish here early today.

THIRTEEN KILLED

Paris, Sept. 5.—Thirteen persons were killed and forty injured in a collision between two trains near Toulouse this morning.

A TIME SAVER

A man in a Chicago suburb who violated the traffic law recently was fined by telephone. In this instance it was brought to the attention of the judge that if the offender came into court it would cause him a considerable loss of time and salary, that he was ready to plead guilty to pay his fine, so the telephone arrangement was adopted.

If this practice could become general, what a vast amount of time would be saved both for counties and litigants! And beside this way of holding court would do away with the usual crowd of spectators and requires no bailiff for keeping order.

THE UNIVERSAL DEMAND

A Jacksonville property owner who wants to sell nowadays has only to name a reasonable price and a buyer is ready with the money. But don't imagine this is a local condition, for the house shortage is everywhere evident. A Morgan county woman who is to live temporarily in Champaign while members of her family attend the university, was compelled to buy a house because she could not rent one. The lack of housing quarters for faculty members at Chicago and Northwestern universities is giving the management a great deal of concern. The fact seems to be that the war cessation of building activities has created an actual country wide shortage.

THE ELECTION

At the election next Wednesday, Sept. 10, the voters of Morgan county in addition to naming delegates for membership in the Constitutional Convention, will select candidates for membership on the county board. Charles Magill, the present incumbent, and George Wheeler are the Republican aspirants. Both are farmers and quite well known to the people of the county. Republican voters are urged to go to the polls next Wednesday and to register their choice as between the candidates.

It is really more important for the voters to take part in the primary than it is in the regular election.

SIZING UP THE FUTURE.

Director Hines of the railroads recommends government control of coal mine prices for this winter. Otherwise Mr. Hines believes that coal men will take the opportunity to boost prices, alleging car shortage as the reason.

GROWING POPULARITY.

It is said that Gov. Lowden in the past month has received 200 invitations to make addresses in different parts of the country. The governor of course can accept very few of these invitations but the fact that they have been received speaks eloquently of his growing strength as a presidential possibility.

GETTING RESULTS.

No one can deny that special traffic officers of Jacksonville are doing a good work. Some of them are quite active in the work of call, the attention of people to violations of the law. Really the greatest effect might be called psychological, for the very knowledge that 40 or 50 private citizens have undertaken the educational work of familiarizing the public with the traffic laws has had an excellent effect in lessening the violations.

REVISING PRICES UPWARD.

It is proposed that in Chicago a committee shall fix the prices at which commodities are to be sold in an effort to see that there is no profiteering and that the people pay only reasonable prices for necessities. This is all very well except for the fact that records show that in some localities during the war period price committees made necessities more costly for their communities instead of making the expected reductions.

PREFER THE

PLAIN AND PRACTICAL.

President Wilson's initial speeches on his present tour deal quite largely with generalities. There are some specific phases of the peace treaty being discussed but the president is making his appeal to the people by the exaltation of American ideals and principles.

The high-sounding phrases are beautifully framed and have their appeal but for the most part the people would rather hear the discussion of some practical themes related to present living costs or individual conditions.

EDUCATION VINDICATED.

There have been numerous editorials written during the past months under the general theme of "Education Vindicated." The sum and substance of these articles has been to show that one of the distinct results of the war period has been to emphasize the value of education. Young men who have been thru the army service came into first hand knowledge of the fact that the young man with high school or college education had a distinct advantage over those who were without such training.

It is pleasing in this connection to know that the local men engaged in educational work say that present days are showing an increased interest in education. This means that the prospects are excellent for an increased attendance at local schools. This is gratifying for the further reason that education is one of Jacksonville's chief lines of "business."

A FEW PERTINENT

QUESTIONS.

The Republican Publicity Association, through its president, Hon. Jonathan Bourne, Jr., today gave out the following statement from its Washington headquarters:

"We went to war because the Imperial German Government has committed repeated acts of war against the Government and the people of the United States of America," as stated in the war declaration itself. We were associated but never allies of the nations at war against Germany. In view of that fact

"Why is the United States embroiled in a controversy between Japan and China over the disposition of a portion of the latter's territory?"

"Just why should America be a party to the formation of the new Czechoslovak State, appoint a commissioner for tracing its boundaries on the ground, etc.?"

"In spite of our love for the music of President Paderewski, would Americans lose any sleep if the boundaries of Poland did not follow the line Kreiso, of Leobschütz, Katscher, Rathor-Oderberg railway, and Krawowitz?"

"Did we go to war in order to

compel Germany to surrender her cables from the Straits of Dover to Paval, from Dunkirk to Tenerife, or from Constantinople to Constanza?"

"Do we particularly care whether or not the King of the Hedjaz recovers the original Koran of the Caliph Othman?"

"Why should we guarantee the right of the Czechoslovak State to construct a railroad from Schlauency to Nachod—wherever that maybe?"

A FAMILIAR THEME

The Chicago Association of Commerce, which includes in its membership about 5,000 merchants and manufacturers, has officially declared itself regarding the factors which produce high prices. Its statement, headed "The Industrial Crisis," says:

"War emptied the warehouses of the world. This world shortage must be met by increased production.

"Without maximum production, which was cheerfully given, the war would have been lost. Without maximum production now, victory will be as costly as defeat would have been.

"The only solution of the problem of rising costs is increased production. The only condition which will make possible a higher standard of living is increased production.

"Industrial unrest curtails production. To limit output increases the cost of production. Strikes destroy production altogether.

"The only program which insures industrial stability is a program of increased production."

Until there is more production, trying to ease the high cost of living by strikes and wage increases is like a dog chasing its tail—kicking up much dust but getting nowhere. Strikes that less production and wage increases that add to costs simply push prices still higher and lead to more strikes and demands for more wages and so on around the vicious circle again. As long as the natural law of supply and demand is being thus accelerated by lessening the quantity of production and increasing the cost of it, crushing "profiteers" and selling a few lots of army supplies at low prices will not appreciably reduce the cost of living.

More production is the only sane solution of the problem.

Rippling Rhymes
By Walt Mason

The Trees.

The trees have music of their own, a soft and soothing monotone, that lulls a man to rest; I have a volume to peruse, but under them, I snore and snooze, my chin upon my breast. To sit beneath a swaying birch is much like being in a church; your drowsy eyelids close; and to the realms of dreams you hie, until an active, loathsome fly camps down upon your nose. How often I have lain awake until I saw the morning break, and slumber would not come, and I would sadly leave the hay, to face another toilsome day, all punk and on the bum. My nights are often things of dread, I toss around upon my bed, and find no comfort there; but when I sit beneath a tree, the sweet restorer comes to me, its contours in the air. The trees have voices sad and sweet, their world-old music they repeat, a solemn, sylvan choir, the same old song they used to sing when Earth was but a half-baked thing, and mortals worshipped fire. They croon their mournful lullaby while men are born, grow up and die, they sigh with every breeze; and when I quit this vale of tears I hope to sleep a million years beneath the nodding trees.

FOUR TRACTORS USED
IN DEMONSTRATION

Large Number of Farmers Watch Machines in Four Hour Plowing Contest—Awards Not Yet Made.

Four tractors took part in an interesting demonstration Friday afternoon at the farm of R. S. Woods just southeast of the city. The contest began at 7 minutes after 3 o'clock and continued for four hours. The judges made no formal awards last night as they had some further data to consider and furthermore, because all the figures were not ready as to the cost of operation. It was stated, however, that in the opinion of the judges the Moline Universal was entitled to first honor for the quality of work done and the Wallis Cub for the largest acreage.

The tractor demonstration arranged by tractor dealers in connection with G. B. Kendall, county agent, was held Friday afternoon on the R. S. Woods farm southeast of the city altho the event had been advertised only two or three days in advance. The interest in tractors is such that at least 400 men were present when the contest started shortly after 3 o'clock.

It was the purpose in arranging for the contest to show what tractors can do considering the points of the number of acres plowed in a given time, the quality of the work done and the cost per acre from a fuel standpoint.

Tractor Parts.
There were four cars in the contest, which was for a four hour period ending at 7:07 o'clock. The four tractors were as follows:

Case 15-27, Charles M. Strawn, agent; driven by Carl Edds. This tractor uses kerosene, pulled 3 14-inch plows and the sale price is \$1,600 f. o. b. factory.

Moline-Universal, Berger Motor Co., agents; driven by A. R. Edwards; burns gasoline as fuel and pulled 2 14-inch plows; price \$1,550 complete with plows.

Wallis Cub, Curtis & Reeve agents; driven by James Condon; pulled 3 14-inch plows. This tractor operates with kerosene for fuel and is priced at \$1,650 factory; \$225 for the plows and \$125 for the discs.

Fordson, E. W. Sorrells, agent; driven by George A. Brogren; operates with kerosene; drew 2 14-inch plows; price \$750 f. o. b. factory.

The judges named to collect data during the contest were Harry Rice, Fred Leach, Homer Reynolds and Charles T. Hoblit. The judges on the quality of the work done were R. Y. Gibson, Lester Reed and Clay Roach.

The contest points on which the cash prizes of \$10 each were offered by R. S. Woods are to be awarded: First, on economy of fuel; second, the average per plow; third, the quality of the work done.

The field in which the tractors were used was admirable for the purpose as there was opportunity for long furrows. The plowing was in a wheat field which Mr. Woods intends to plant in corn the coming season and in plowing the stubble this fall he followed his general plan of operation. The land was in wheat this year in oats last year and had subsequently raised three or four crops of corn.

Judges Had Hard Task.
The contest started when County Agent Kendall fired two shots from a revolver. The machines for most part had little trouble, altho there were occasional stops. The judges had no easy task in deciding how the prizes should be awarded as, generally speaking, the work done was of a kind to bring forth the approval of the farmer spectators.

The fact that there was such a large company of men present was indicative of the interest there is in tractors. Time was when most farmers felt that the tractor had not been developed enough to permit its use except on the larger farms. Now conditions are different and the tractors are of so many sizes that there is one available for nearly every farm. There was special interest yesterday in the question of fuel cost and as to the number of acres to be plowed within a given time.

HANDSOME TWINS.

George Calhoun and family were up to the city from Franklin yesterday. T. A. Calhoun and family of Great Bend, Kansas are visiting Mr. Calhoun's brother, George and family of Franklin and came to town yesterday bringing along as handsome twins as one could ask to see. They were much admired by many.

SOME TIMOTHY SEED.

Stansfield Baldwin can show about the bumper record for timothy seed this year. He has 170 bushels grown on land that yielded eight and a half bushels to the acre and it seems all to be of a fine quality.

LATE CORN CROP.

There is always an element of chance in farming anywhere and the late John Virgin, formerly of the north port of the county had an experience of that kind. He had a good sized field that yielded a bumper wheat crop, forty bushels to the acre, and as soon as it was off he broke up the ground and planted corn in the ground and raised a good crop. There was hardly any frost before December. Next year he planted a good sized field, the season was bad and his crop was well nigh a failure.

BACK FROM OVER SEAS.

Fred Ross, son of John Ross, residing north of the city, has returned from overseas where he went last fall but not in time for any part in the great drive. He was in the general headquarters of the T. M. Q. and comes back with a good record.

SOME AGRICULTURAL DISPLAY

In the front window of Dr. Kopperl's office are several articles of interest. There is some fine white corn grown by Edward Phillips and some heads of Turkey Red wheat which look all right.

S. H. McDermot has a sample of his Turkey Red wheat which yielded thirty bushels to the acre. There are samples of graded

wool, fine, half blood, three fourths blood and lowgrade, all interesting.

DOVE SEASON.

The dove shooting season opened last Monday and a number of local sportsmen have taken advantage of the fact during the week. The season extends from Sept. 1 to Sept. 30. The daily limit is fifteen birds.

IN THE RAILWAY WORLD

The high cost of living has hit Chicago & Alton passenger crews in a new place. Those who inquired about the cost of caps and uniforms for the fall, were informed that the price has greatly increased. The uniform caps that were always sold in the past for \$2. now cost \$3.25, while the blue uniforms that could be purchased a few years ago for \$25 to \$30 now cost twice that sum. Most conductors and flagmen buy two

outfits a year, one of light weight for the summer, and a heavier grade for the fall and winter. Orders are now being placed for the fall and the cost is much greater than ever before. The increase in pay did not come any too soon in the opinion of Alton passenger trainmen.

Appointed Acting Roadmaster
A circular was issued recently by the Alton announcing the temporary appointment of J. P. Corcoran as acting roadmaster, succeeding Morris Donahue, who was summoned to Washington to attend a meeting of the maintenance committee of the railroad administration. He served upon this committee for several months last spring when a new schedule of wages and working conditions was prepared. The committee has been reconvened to take up some new business that has developed. Mr. Donahue will probably be in Washington for several weeks. Mr. Corcoran, who is division roadmaster, will look after his duties on the Northern division, in addition to those of Mr. Donahue.

To guard against fire damage Alton section foremen have been instructed to shave off weeds and grass from around telegraph poles and sign posts for a distance of six feet in a circle around poles.

CHURCH SERVICES WILL BE RENEWED

Regular services will be renewed at Union Baptist church tomorrow. The services have been discontinued during the summer months. Rev. F. M. Crabtree announced yesterday that the usual services would be held at 11 a. m. and 12 noon.

STRICKEN WITH PARALYSIS

Two persons of the east part of the county are suffering from paralysis. Richard McCall of Alexander has a stroke of the right side, and is very low. William Rawlings of Durbin is laid by with a stroke of the left side and is in a precarious condition.

WILSON ADDRESSES THOUSANDS IN ST. LOUIS

(Continued from Page One.)

I put that proposition to any business man, young or old in the United States and ask him how he likes it and whether he considers that a useful way for the United States to stand alone. We have got to carry this burden of reconstruction, whether we will or not, or be ruined, and the question is shall we carry it and be ruined anyhow, for that is what these gentlemen propose that at every point we shall be embarrassed by the whole financial affairs of the world being in the hands of other nations.

"As it stands now every nation trusts us. They look to us. They long that we shall undertake anything for their assistance rather than that any other nation should undertake it. And if we say so we are in this world to live by ourselves and get what we can out of it by any selfish process then the action will change the whole heart and attitude of the world towards this great free, justice-loving people, and after you have changed the attitude of the world what have you produced—peace?"

"Why, my fellow citizens there are many here or any woman let me say is there any child here who does not know that the seed of war in the modern world is industrial and commercial rivalry."

"Ladies and gentlemen, I do not say it because I am an American and my heart is full of the same pride that fills yours, with regard to the power and the spirit of this great nation, but merely because it is a fact which I think everybody would admit outside of America, the organization contemplated by the league of nations without the United States would merely be an alliance and not a league of nations."

PLUMB PLAN DENOUNCED

Washington, Sept. 5.—The Plumb railroad re-organization plan, said by its author to have the support of the railway workers was denounced today as the "best plan ever devised to drive the brains out of the railroad business."

The statement was made by Earl H. Morton, president of the Order of Station Agents before the house interstate commerce committee.

"The plan is so preposterous," Morton added, "that it would not merit serious discussion but for the fact that the so-called Plumb plan league seems to be securing the support of large numbers of railroad employees who have not really informed themselves as to what the plan is and as to the way in which it would actually work."

ORDER SUSPENSION OF WORK

Scranton, Pa., Sept. 5.—Following a lengthy session of the Delaware & Hudson company miners' grievance committee here this afternoon orders were issued to night for a general suspension of work in all of the collieries operated by the company in the Lackawanna and Wyoming valleys. Twenty-six collieries will be closed and 19,000 men affected by the strike. The trouble which resulted in tonight's general strike order had its inception at the Bowdler colliery in Carbondale when the company installed mechanical loaders.

"ROUND THE RIM" PLANE REACHES CHICAGO

Chicago, Sept. 5.—The "round the rim" of the country airplane under the command of Lieutenant Col. R. S. Hart arrived today and landed in a public park. The commander and crew will remain until Sunday when they will take off for Milwaukee.

NEW EVIDENCE

Quincy, Ill., Sept. 5.—A large number of scabbards that were rejected or unspectated and that were taken from boxes in the Wolf Manufacturing company in this city, when they were ready for shipment for overseas military service were presented as evidence in federal court today.

FORBIDDEN TO TAKE OATH

Berlin, Sept. 5.—General Magnin has forbidden German officials within the jurisdiction of the tenth French army to take oath to the new constitution.

"BABE" RUTH WILL JOIN THE MOVIES

Boston, Sept. 5.—"Babe" Ruth, the Boston American League Club home run hitter has signed a contract to act in a baseball feature motion picture which will be made in California at the close of the league season it was announced here today.

Big Lot of HAY FEVER JOKES

But Kentucky Man Says—"People Who Belong to Hay Fever Society are Kidding Themselves."

Wouldn't Be Any Rose or Hay Fever if Simple Home Remedy was Given a Chance.

"Yes, there's a real NINETY-NINE per cent effective remedy for hay or rose fever," frankly states a druggist in a prosperous Kentucky city.

"But I don't expect anyone to believe me, because the treatment is so easy and the cost not worth mentioning."

"The annual crop of hay-fever jokes would be mighty scarce if people would get an ounce of Mentholized Arcine and by just adding water that has been boiled make a pint of liquid that will prove a real help to all who suffer."

"Many of my hay-fever friends tell me that by starting to gargle and sniff or spray the nostrils a few times a day the expected severe attack often fails to appear and in cases where it does show up is very mild and does not annoy."

"The Better Class of Pharmacists" who dispense Mentholized Arcine say it will greatly modify any attack even when taken three or four days after hostilities begin.

Go to a real live druggist when you get ready to make a pint.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren Is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and a new mind by putting your blood and nerves in first-class shape with nightly Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day or 7 days—then reduce to one after each meal until all are gone. Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, run-down, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

THE SUGAR SHORTAGE Cannot Be Relieved for Some Time to Come.

Washington, Sept. 4.—Sugar shortages now experienced in many parts of the country cannot be relieved for some time to come, George A. Zabriskie, president of the United States Equalization Board, said in a letter received today by Senator Hitchcock, Democrat, Nebraska.

The demand is enormous and largely in excess of refiners' ability to supply it at this time," said Mr. Zabriskie. "Complaints regarding the sugar shortage come from all sections of the country and we fear it will be practically impossible to relieve situation for some time to come."

Sugar from old beet crops, Mr. Zabriskie added is practically exhausted and shipments from the West Indies have been "seriously embarrassed" by the marine strike.

DEPUTIES DISCUSS FINANCIAL CLAUSES

Paris, Sept. 5.—The chamber of deputies today discussed the financial clauses of the peace treaty. M. Bedouce, Socialist, advocated that the society of nations assume a proportion of France's debt. M. Klotz, minister of finance, argued that the solution of this question which had been reached, was the best obtainable under the circumstances. He said that Germany eventually would pay a large part of France's damages and for the work of reconstruction.

BAR ASSOCIATION CLOSING CONVENTION

Boston, Sept. 5.—The American Bar association brought its annual convention to a close with the election of officers today and a dinner tonight. Hampton L. Carson of Philadelphia, former attorney general of Pennsylvania, was elected president. Secretary George Whitlock of Baltimore, and Treasurer Frederick E. Wadhams of Albany, N. Y., were re-elected.

Distinguished jurists and lawyers sat at the president's table at the dinner, among them Chief Justice Edward D. White of the United States supreme court.

NEW WORLD'S RECORD.

Indianapolis, Ind., Sept. 5.—A new world's record for four year old trotting geldings was established at the Indiana State Fair today when Ramco, owned by Wilbur J. Meyers, Springfield, Ohio, and driven by Harry Stokes, won the first heat of the 2:09 trot in 2:06 3/4. The former record of 2:07 1/4 was made by Uhlman in 1908.

WAS NOT OVER MEXICO

U. S. Plane Was Flying Over American Territory When Fired Upon.

Washington, Sept. 4.—The American army airplane fired upon by Mexicans Tuesday was "at no time over Mexican territory," the war department was informed today by Major General Dickman, commanding the southern department. Mexican officials claim the machine had crossed the international boundary line before the Mexican opened fire wounding Captain W. D. McNabb.

THREE CHARGED WITH ASSAULT AND BATTERY

Howard Schneider, Leo DeLess and Roy Dodswordth Arrested on Charges of Assaulting Charles Rodgers — Schneider Pleads Guilty and Pays Fine—Others Will Stand Trial.

Howard Schneider, Leo DeLess and Roy Dodswordth were arrested by Patrolman Hurst Friday evening on the charge of assault and battery. The complaining witness was Charles Rodgers.

The men were arraigned before Justice Opperman about 7:30 o'clock Friday evening. Schneider entered a plea of guilty and paid a fine and costs amounting to \$18. DeLess and Dodswordth gave bond for their appearance Monday Sept. 8 at 9 o'clock a. m.

Rodgers is employed at the Illinois Steel Bridge company. It is alleged that the three men named above have been picketing the plant since the men went out on strike some time ago, because of refusal of the company to recognize the union. Friday evening when Rodgers left the plant it is said that Schneider, DeLess and Dodswordth drove up in a car and assaulted him and then jumped in the car and rode away. Constable Ben Scott who has been watchman at the plant recognized Schneider but was unable to identify DeLess and Dodswordth as the men who were with him.

ROTARY CLUB HELD FIRST FALL MEETING

The Rotary club met at luncheon Friday noon at the Pacific hotel for the first time in a month. There was nearly a full membership present and the club starts the fall season with renewed enthusiasm. H. M. Capps, president, presented the new members Charles A. Johnson and Arthur M. Masters. There was a symposium of addresses including those by Dr. C. H. Hammelkamp, H. A. Perrin, superintendent of school, and John S. Hackett. The themes proved of a very interesting and informing kind.
The room where the lunches are held has been re-decorated in an attractive way during the summer months and Manager Brennan of the Pacific was given many compliments on the appearance of the room.

ROTARY CLUB HELD FIRST FALL MEETING

The Rotary club met at luncheon Friday noon at the Pacific hotel for the first time in a month. There was nearly a full membership present and the club starts the fall season with renewed enthusiasm. H. M. Capps, president, presented the new members Charles A. Johnson and Arthur M. Masters. There was a symposium of addresses including those by Dr. C. H. Hammelkamp, H. A. Perrin, superintendent of school, and John S. Hackett. The themes proved of a very interesting and informing kind.
The room where the lunches are held has been re-decorated in an attractive way during the summer months and Manager Brennan of the Pacific was given many compliments on the appearance of the room.

RUSSELL A. ARTER IS AGAIN IN THE CITY

Russell A. Arter, son of Mr. and Mrs. H. O. Arter, has just been given his discharge from the navy service and is at his home in this city. The young man has been in the service for a year and a half past. He was on duty with a group of five destroyers which cruised the Atlantic coast, and one of the trips made was down the St. Lawrence river.
Young Arter served as pharmacist mate in the hospital corps.

Pointed Paragraphs

A United States shell plant that was to have cost \$1500,000 had cost \$14,000,000 by the time the armistice was signed and was still uncompleted. Apparently they didn't get the armistice signed a bit too soon.

The prohibition party and the W. C. T. U. may get together but there probably will be no good song ringing clear.

Maybe that colored man in St. Louis who wished someone would hang him was homesick for Georgia.

And speaking of the southern state, if you want to get a rise out of any northerner who ever was camped in any of the different camps which the state contained just start that melody "Everything is Peaches Down in Georgia."

It looks as if something in connection with that \$14,000,000 shell plant was loaded.

If Chief Kiloran continues to doze out traffic laws and Mayor Crabtree continues to appoint officers, it may soon become necessary for visitors in the city or others unacquainted with the new traffic regulations and parking rules to take on a pilot before entering the business district.

Germany must deliver 20,000,000 tons of coal to France. But it may be that she will make so much noise in unloading it that no one will be able to sleep while the work is under way.

The absence of the president from the white house for a month will not disturb the servants, they are accustomed to running things in the absence of the family.

A peculiarity is that while Europeans were accustomed to eating rye bread, the food administration bought all the wheat flour for distribution among them, leaving the rye for the Americans.

Probably the largest number of persons who will hear the president deliver any one of his twenty-six speeches will be 15,000. But by the use of the press, at least 40,000,000 people will read what he had to say in that speech. Speechmaking in these days is national wastage.

Honoring Pershing

Washington Post: Only four members voted against the Pershing bill. Three of them did so upon the flimsy ground that they did not favor singling out any individual in the army for exceptional honors. The history of this nation abounds in precedents for doing this very thing, the last to receive permanent high rank by congressional action having been Admiral Dewey. The fourth member based his opposition upon the fact that he did not like the way Pershing treated the soldiers in France; that he was heartless, and American soldiers in the cause. None of the objections carried weight with the membership of the house, which as a body delighted in showing this great honor to the commander of the American forces.

Misjudged.

B. L. T. in the Chicago Tribune: It is feared by the internal revenue department that submarines will be employed to smuggle whisky into these United States. And only a little while ago the sub was regarded with terror and loathing!

Parasites.

Minneapolis Journal: Director General Hines reports 1,590 wives, daughters, sons and relatives of railroad officials holding annual all-linelines. There are always a few ginks born to get through without paying.

The Texas Idea.

Omaha World-Herald: While people may not agree with the governor of Texas about intervening in Mexico, they all pretty generally approve his slogan, "Make the world safe for Americans."

Going and Coming.

St. Paul Pioneer Press: It takes a long time for the slump in hog prices to reach the consumer, but the change in price comes quickly enough when it is going the other way.

Fishing for What?

New York World: Mayor Oie Hanson quits office to "go fishing." Just what kind of fish will an able city executive most desirably out of office most desire to catch?

Just as a Cure.

Portland Oregonian: We ought to send President Carranza a biography of Sergeant Alvin S. York.

JUDGE THOMSON'S CAR RECOVERED

Thursday evening the Ford car of Judge W. E. Thomson was stolen from in front of R. T. Cassell's cigar store on the west side of the square.

Friday G. A. Harrison, residing about twelve miles east of Jacksonville on the state road, notified Mrs. W. H. Weatherford that a Ford car had been abandoned near his residence.

The sheriff's force went to the scene and brought the car back to the city. The license tags had been removed from the car and probably thrown away. The lights had been exhausted but there was ample gasoline to bring it back to Jacksonville. Just why the thieves abandoned the car at this particular place is a mystery.

The spot where it was abandoned is several miles from any railroad station. The sheriff thought that it might have been taken by some one who lived in the east part of the county and abandoned when they got within a few miles of their destination.
